## CORON AIR CARBON MIPS

A carbon-fiber shell combines with a multi-impact liner and MIPS for lightweight performance, protection and all-day usability.

ARTICLE NO. 10747

¥65,000-

## HIGHLIGHTS\_

- Carbon fiber shell
- Breakaway peak
- Innovative airflow channels
- Removable cheek pads

CERT. EN 1078, CPSC 12.03, ASTM F1952

DETAILS\_

**MIPS**

The MIPS Brain Protection System gives improved rotational impact protection.

**Multi-impact liner**

An EPP liner gives multi-impact protection.

**Carbon-fiber shell**

The outer shell is constructed from carbon fiber to ensure exceptional strength and low weight.

**Breakaway peak**

The helmet's peak will break away in a fall, enhancing neck protection.

**Innovative ventilation**

The innovative airflow channels through the helmet work to keep the head cool at both high and low speeds.

**Removable cheek pads**

Cheek pads can be easily removed after a crash, making it easier for medical professionals to remove the helmet after injury.

**Ear chambers**

Specific ear chambers minimize the impact of wearing a full-face helmet on hearing and balance.

DETAILS

### MIPS

The MIPS Brain Protection System gives improved rotational impact protection.

### twiCEme® NFC Medical ID

The twiCEme® NFC Medical ID gives instance access to vital medical and emergency contact details.

### RECCO® Reflector

A RECCO® Reflector helps rescue services easily and quickly locate you if something goes wrong.

### Dual-material liner

EPP in the lower part of the helmet improves durability and sustainability, while an EPS upper keeps weight low.

### Injection-moulded liner

The lower part of the liner features an injection-molded cage for extra strength and stability.

### Aramid Bridges

Aramid bridges are molded to the helmet liner to enhance structural stability and improve penetration protection.

### PC Shell

The outer shell is constructed from PC to give exceptional durability.

### Race Lock

The Race Lock integrated adjuster makes it easy to find a comfortable, secure fit.

### Breakaway peak

A patented breakaway peak will snap off the helmet in a fall, enhancing neck protection. The smooth underside is shaped to house a GoPro mount.

### Highly ventilated

Ventilation is optimized to channel air through the helmet for comfort at both high and low speeds.

### Removable cheek pads

Cheek pads are easy to remove while riding, giving more ventilation when on the climbs between enduro race stages.

### Removable grill

The grill in the chin piece protects the face from mud splashes. It can be removed for better airflow in warmer, drier conditions.

-- Comes with a clip-on peak extension for more protection from mud and rain.

DETAILS\_

**MIPS Integra**

The latest technology from brain protection specialists MIPS enhances rotational impact protection.

**twiCEme® NFC Medical ID**

Store your vital medical info and emergency contacts within the helmet so first responders can instantly get the information they need.

**RECCO® Reflector**

A RECCO® Reflector helps rescue services easily and quickly locate you if something goes wrong.

**EPS Liner**

A lightweight EPS liner gives optimized protection.

**Unibody Shell**

The unibody PC shell enhances the structural integrity of the helmet

**E-bike ready**

Developed for use with e-bikes, the Kortal helmet meets the Dutch NTA 8776 e-bike helmet standard.

**Adjustable 360° Fit**

A 360° adjustment system makes it easy to find a secure, comfortable fit.

**Uninterrupted Ventilation**

Design ensures goggle strap does not cover any ventilation ports

**Patented breakaway peak**

A patented breakaway peak will snap off in a crash to enhance neck protection and reduce the chance of injury.

**Eye Garage**

It's easy to securely store sunglasses in the ventilation holes at the back of the helmet.

**Goggle compatible**

The helmet gives a seamless fit with the POC Ora goggles, which fit underneath the peak when not in use.

**Extended Protection**

Extended zones around the temples and back of the head give extra protection in risk areas.
